	Primary Examiner, Art U	nit 2624	

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments filed on 1/25/2010 have been fully considered but they are not persuasive.

Applicant's argue on page 7 of the response that the disclosure of Mutoh uses a fine scaler first and coarse scaler second.

The examiner disagrees. In the claim of instant limitation, coarse scaling requires scaling ratio of 1/X and fine scaling requires scaling ratio of Y/Z. in paragraph 153 of Mutoh, it is magnification example of rate 8.4 and first way of scaler (coarse scaling) would be 8 and second scaler (fine scaling) would be 8.4/8 which is same as 84/80. if it is size reduction rate of 8.4 then first way of scaler would be 1/8 and second scaler would be 8/8.4 which is same as 80/84 (X=8, Y=80, Z=84).
